

Dedicate a native tree

Valid until 31st March 2017

It is possible for families to dedicate a native tree within the burial meadow. The variety of tree will be selected from a native list and each will be planted 6m apart.

Dedicating a tree covers the purchase of the tree, the tree label, preparing the ground for the planting, stake, guard and mulching and tree maintenance as well as attendance and administration costs. A horticultural plaque showing the variety of tree, month and year of planting and the name, year of birth and year of death of the deceased will be provided. During the planting season (November-March) you are welcome to come along and get involved in the planting. At other times of the year you will be placing a plaque at the foot of a sapling that has already been planted, to dedicate that tree in memory of someone who has died.

Please note that if you wish to scatter ashes next to your tree you will need to complete a separate ashes scattering form. This is because all disposals of remains at the burial ground must be recorded in our register. Ashes can only be scattered above ground because below ground is legally regarded as an 'Interment'.
