

There are two options for planting individual native trees at the burial ground:-

- A. Inside the burial meadow, there are a few select positions close to the edges, where robust cages will guard these new trees against being nibbled by livestock.
- B. Within the copse area at the western corner (bottom right of the burial ground) where trees can be guarded by a much simpler tree-tube guard and stake.

In each case, a Welsh slate plaque within the Memorial Panel is included in the price and a horticultural style 'tree label' is displayed at the base of the tree inscribed with the details given below. The slate plaque will be displayed in the Memorial Panel for a period of 25 years. Tree labels will be displayed for an initial period of 10 years (due to the projected lifespan of the materials), and you will have the option to renew/extend the periods at the end of this term.

1. Requested date of planting (between November and March) _____

2. Details to be inscribed on the 'tree label'
